

**EZ.Lock™**  
2-piece assemblies simplify installation by creating open, tab-free areas to quickly and securely place the siding on the wall.

**EZ.Bump™**  
Caulk free installation. Creates superior fit-and-finish and an interior drainage plane flushing water away from the siding and walls.

**EZ.Slope™**  
Safely set the siding right on the ledge. Horizontal trim with built-in 8° sloped ledges shed dirt and water away from the wall.

**EZ.Line™**  
Ensure consistency and ease of installation through our alignment guides and screw set lines built into the backend of our trims.

**Warranty**  
Our trims are made of ultra-durable 6063-T5 aluminum backed by a long-term 15-year performance warranty.

**ColorMatch™**  
Unlimited custom colors. Or select from our standard finishes: clear anodized, black anodized, or primed.

# Fiber Cement Trim System

## Profile Legend

### No Charge Sample Pack

Request a set of our fiber cement trim profiles for no charge shipped right to your door. Simply request a set online, through your local sales rep, or email [samples@easytrimreveals.com](mailto:samples@easytrimreveals.com) and we'll ship you one right away.
